Bullet Journal® Pocket

It fits in any pocket, is quickly to hand wherever you are and provides the complete journaling experience with smart features. Together with Ryder Carroll, the inventor of the Bullet Journal® method, we have developed this special format - a compact and mobile solution for the global Bullet Journal® community.

The Bullet Journal® Pocket has been designed in detail for daily journaling: When unfolded, it transforms into a space wonder that is used vertically and offers the space of an entire A5 page. The dotted lines are designed so that the maximum 31 days of a month can be listed vertically - one pocket journal for each month. They are available in a set of 3.

- Orientation in landscape format
- One double page offers the space of an entire A5 page
- One Bullet Journal® Pocket per month
